

## Ranking points

Players participating to the official WFGA Tour can win points for the WFGA ranking. The points won account for the ranking according following rules:

- Points are valid for 2 years and deleted at the beginning of the 3rd year/season.
- As no competition took place in 2020, the points won in 2018 and 2019 will be considered to define the ranking at the beginning of the season 2021.
- The player's 5 best tournaments scores in 2021 are accounting for the ranking.
- Tournaments are weighted as following:

World Championship                      150 points to win per category.  
Per 25 players (teams for doubles) over 150 players in the category, the points will increase with 25 points

Open    50 points to win per category.  
Per 25 players (teams for doubles) over 50 players in the category, the points will increase with 25 points

Matchplay                                      75 points to win per category.

**150 points x 7,8 % = 11,7 points**

If the competition had 201 players, the same player finishing 38<sup>th</sup> would get:

**200 points x 7,8% = 15,6 points**

- Points for double rankings are calculated the same way as singles, both players get the amount of points won.
- Double mix can play with the double men competition but will get no points.
